# National Poultry Improvement Plan

## 2004 Directory of Participants Handling Egg-Type and Meat-Type Chickens and Turkeys

The U.S. Department of Agriculture (USDA) prohibits discrimination in all its programs and activities on the basis of race, color, national origin, sex, religion, age, disability, political beliefs, sexual orientation, or marital or family status. (Not all prohibited bases apply to all programs.) Persons with disabilities who require alternative means for communication of program information (Braille, large print, audiotape, etc.) should contact USDA's TARGET Center at (202) 720-2600 (voice and TDD).

To file a complaint of discrimination, write USDA, Director, Office of Civil Rights, Room 326-W, Whitten Building, 14th and Independence Avenue, SW, Washington, DC 20250-9410 or call (202) 720-5964 (voice and TDD). USDA is an equal opportunity provider and employer.

## History and Management of the National Poultry Improvement Plan

The National Poultry Improvement Plan became operational July 1, 1935, and the National Turkey Improvement Plan was activated on September 25, 1943, with the approval of the Secretary of Agriculture. On December 3, 1971, the two Plans were combined under one title, "The National Poultry Improvement Plan," with separate provisions applicable to the different types of poultry.

The Plan is implemented by State authorities in cooperation with the U.S. Department of Agriculture (USDA) in administering regulations for the improvement of poultry, poultry products, and hatcheries. Authority for the administration of the Plan is now contained in the Department of Agriculture Organic Act of 1944, as amended (7 U.S.C. 429).

Provisions of the Plan are changed from time to time to conform with the development of the industry and with new information as it becomes available. These changes are based on recommendations made at the biennial national Plan conferences by official delegates representing participating breeders, hatcheries, and flock owners from all cooperating States. Current provisions of the Plan are contained in a publication entitled "The National Poultry Improvement Plan and Auxiliary Provisions." This publication (APHIS 91-55-063) is available from Official State Agencies or on request to the National Poultry Improvement Plan, USDA, Animal and Plant Health Inspection Service (APHIS), Veterinary Services, 1498 Klondike Road, Suite 101, Conyers, GA 30094.

### National Poultry Improvement Plan U.S. Pullorum-Typhoid Clean States

March 2004

## Hatchery-Disseminated Diseases

The following States have received recognition for their efforts in controlling certain hatchery-disseminated diseases under the National Poultry Improvement Plan.

<b>U.S. Pullorum–Typhoid Clean State</b>	<b>1975</b>	<b>1976</b>	<b>1981</b>	<b>1988</b>
	Arkansas	Alabama	Delaware	New Jersey
	Connecticut	Georgia	Indiana	New York
	Florida	Iowa		West Virginia
	Illinois		<b>1982</b>	
	Maine	<b>1977</b>	Missouri	<b>1989</b>
	Massachusetts	Pennsylvania		Louisiana
	Minnesota		<b>1984</b>	Michigan
	Mississippi	<b>1978</b>	Kentucky	Wisconsin
	Nebraska	Virginia		
	New Hampshire		<b>1985</b>	<b>1991</b>
	North Carolina	<b>1979</b>	Rhode Island	Montana
	North Dakota	Tennessee		
	Ohio		<b>1986</b>	<b>1994</b>
	South Dakota	<b>1980</b>	Kansas	California
	Utah	Maryland	Oklahoma	Oregon
	Vermont	South Carolina		
	Texas	<b>1987</b>	<b>1997</b>	
		Washington	New Mexico	
<b>U.S. Pullorum–Typhoid Clean State, Turkeys</b>	<b>1985</b>			
	Colorado			
<b>U.S. <i>Mycoplasma gallisepticum</i> Clean State, Turkeys</b>	<b>1980</b>	<b>1982</b>	<b>1987</b>	<b>1993</b>
	Illinois	North Carolina	West Virginia	Arkansas
	Minnesota			
	<b>1981</b>	<b>1985</b>	<b>1988</b>	<b>2001</b>
	Indiana	Wisconsin	New Jersey	California
	Iowa			
	Nebraska	<b>1986</b>	<b>1990</b>	<b>2002</b>
		Virginia	Ohio	Utah
<b>U.S. <i>Mycoplasma gallisepticum</i> Clean State, Meat-Type Chickens</b>	<b>2003</b>			
	Minnesota			
<b>U.S. <i>Mycoplasma synoviae</i> Clean State, Turkeys</b>	<b>2003</b>			
	Minnesota			

## Using This Publication

The hatcheries, dealers, and independent flocks listed in this publication are participating in the National Poultry Improvement Plan, according to reports submitted by the Official State Agencies. This list of participants is published for the purpose of developing greater efficiency in the operation of the Plan. Additional information regarding participants may be obtained by communicating with the Contact Representative of the Official State Agency of the respective State. The Contact Representative's name, address, and telephone number are given at the beginning of each State's listings in table 1.

This publication is revised each year because of frequent changes in participation and the need for inspectors, hatchery managers, dealers, and others to have up-to-date information. In addition to this listing, all Official State Agencies are notified of changes in participation that take place during the year.

The National Poultry Improvement Plan provisions, as contained in Title 9, Chapter I, Parts 145 and 147 of the Code of Federal Regulations, provide for recognition of different classes or types of fowl as follows:

- Subpart B—Egg-Type Chickens,
- Subpart C—Meat-Type Chickens,
- Subpart D—Turkeys,
- Subpart E—Waterfowl, Exhibition Poultry, and Game Birds, and
- Subpart F—Ratities.

Participants handling waterfowl, exhibition poultry, game birds, and ratites are listed in a separate publication (APHIS 91-55-074) in this series. Ratities.

### Approval Numbers

In table 1 of this publication, the numerals preceding the name of the State, together with those preceding the name of each participant, constitute the participant's approval number. For example, the approval number for the first hatchery listed under Alabama is 64-183. The number 64 represents the State of Alabama; 183 represents Centurion Poultry, 5087 County Road 35, Bremen 35033. These assigned numbers may be used by participants on shipping labels, certificates, invoices, and other documents for identification. The numbers may also be used as reference numbers for shipments to member States of the European Economic Community.

### Participant's Name and Address

Three types of participants are listed in this publication: hatcheries, dealers, and independent flocks. For each State, the type of participant is given immediately above the first name in that category.

### Hatching-Egg Capacity

Figures in this column refer to the hatching-egg capacity of hatcheries, according to manufacturer's rating, including setting and hatching trays. Letter symbols in this column refer to products that dealers handle, as follows: E, hatching eggs; C, chicks; P, poult; and SP, started pullets. When an independent flock is listed, this column is left blank.

## Products and Classifications

All products handled by participants listed in this publication meet the specific requirements for a “U.S. Pullorum–Typhoid Clean” classification. The combined letter and numeral symbols shown in the fourth column identify the particular breed, strain, or trade name of the participant’s products (see tables 4 and 5 in the appendix). Crosses are designated by combining the letter symbols and code numbers of both parent stocks, listing the male first. Thus a T9T18 code would indicate that the participant was handling a cross consisting of a Hubbard male mated to a Pilch female. Additional classifications for which these products qualify are identified in column five by MG, “U.S. *M. gallisepticum* Clean”; MGM, “U.S. *M. gallisepticum* Monitored”; MS, “U.S. *M. synoviae* Clean,”; MSM, “U.S. *M. synoviae* Monitored”; MM, “U.S. *M. meleagridis* Clean”; SAN MON, “U.S. Sanitation Monitored”; SE, “U.S. *Salmonella enteritidis* Monitored” for egg-type chickens; SE, “U.S. *Salmonella enteritidis* Clean” for meat-type chickens; SALM, “U.S. Salmonella Monitored”; and AI, “Avian Influenza Clean.”

## Laboratories Approved To Test for the Following Diseases

Code	Disease Name
AI	Avian Influenza
D	Diagnostic work
MG	Mycoplasma gallisepticum
MGM	Mycoplasma gallisepticum Monitored
MM	Mycoplasma meleagridis
MS	Mycoplasma synoviae
MSM	Mycoplasma synoviae Monitored
P	Pullorum-Typhoid
SALM	Salmonella Monitored
SAN MON	Sanitation Monitored
SE	Salmonella enteritidis

## Explanation for Tables

Participants listed in table 1 represent hatcheries, dealers, or independent flocks handling egg-type chickens. Participants listed in table 2 handle meat-type chickens; those in table 3 handle turkeys. The products they handle have a letter symbol as follows:

- A—Broad-breasted bronze
- C—Large and medium white
- D—Small white
- E—Other varieties
- S—Egg-production stocks
- T—Meat-production stocks

These letter symbols, together with accompanying numerals representing specific breed, strain, trade names, or other specific type of birds, are fully explained in tables 4 and 5.

## State Importation Requirements\*

\*Requirements as reported by State officials.

<sup>1</sup> Or substitute certificate signed by Official State Agency or livestock sanitary official of State of origin.

<sup>2</sup> Or a statement from producer showing date of shipment, name and address of producer, quantity, breed, and pullorum-typhoid status.

<sup>3</sup> All poultry, eggs (hatching), chicks, and poults must originate from Pullorum–Typhoid Clean flocks and be accompanied by a health certificate.

<sup>4</sup> Approval or permit number required to ship into State.

<sup>5</sup> VS Form 9–3 required for National Poultry Improvement Plan participants only.

<sup>6</sup> Additional requirements for non-National Poultry Improvement Plan participants.

<sup>7</sup> Wildlife.
